

Claims:-

1. A delivery box adapted to be secured to a fixed support and having an outer door which is openable to enable deliveries to be placed inside the box but which locks automatically when it is then closed.
2. A delivery box according to claim 1, wherein the support is a wall of a building.
3. A delivery box according to claim 2, which is bolted internally to the exterior surface of the wall.
4. A delivery box according to claim 2, which is built into the wall.
5. A delivery box according to claim 4, which has a rear door openable directly into, and lockable from, the interior of the building.
6. A delivery box according to claim 4 or claim 5, wherein the outer door is substantially flush with the exterior surface of the wall.
7. A delivery box according to claim 1, wherein the outer door has a letter deposit flap.
8. A delivery box according to claim 7, wherein the flap opens into a receptacle mounted on the back of said door.
9. A delivery box according to claim 1, wherein the outer door may have a bank-type deposit drawer.
10. A delivery box according to claim 1, wherein the box is adapted to be supplied with mains electricity.
11. A delivery box according to claim 10, which includes a chilled storage compartment.

12. A delivery box according to claim 10 or claim 11,  
which includes a frozen storage compartment.

13. A delivery box according to claim 1, wherein the outer  
door has a digital computerised locking system operable by  
5 pre-arranged single-use code numbers.

14. A delivery box according to claim 1, which is adapted  
to be connected to an existing alarm system.

15. A delivery box according to claim 1, which has an  
external child-resistant grille with an opening catch at a

10 high level.
